¿Cómo se usa el Tangram? ❄️

Usar el tangram es muy sencillo y entretenido, ¡pero también un gran reto para la mente! Aquí te explicamos paso a paso cómo aprovechar este fantástico recurso:

☑️ Instrucciones de uso:

1. Saca las 7 piezas del tangram de su base (también llamadas "tans").
2. Observa o elige una figura a formar, como un animal, persona, objeto o forma geométrica (puedes usar plantillas o dejar volar la imaginación).
3. Usa todas las piezas para formar la figura:
 - No deben superponerse.
 - Debes usar las 7 piezas en cada figura.
4. Explora diferentes combinaciones, rota o voltea las piezas hasta encontrar la forma correcta.
5. Juega en grupo o en solitario, comparando resultados o proponiendo retos.

🎯 Sugerencias de juego:

- **Nivel inicial:** Forma un cuadrado con todas las piezas (es el reto clásico).
- **Nivel intermedio:** Usa plantillas con la silueta de figuras para intentar replicarlas.
- **Nivel avanzado:** Crea tus propias figuras sin guía.

💡 **Consejo:** Empieza con figuras sencillas y aumenta la dificultad poco a poco. ¡Es un juego que nunca pasa de moda y siempre desafía tu mente!
